## **INDEPENDENT AUDITOR'S REPORT**

The Board of Trustees and the Director  
Port Jefferson Free Library  
100 Thompson Street  
Port Jefferson, New York 11777

### **Opinions**

We have audited the accompanying basic financial statements of the governmental activities and each major fund of Port Jefferson Free Library (the "Library") as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Port Jefferson Free Library, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Port Jefferson Free Library, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Port Jefferson Free Library's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists.

**INDEPENDENT AUDITOR'S REPORT**  
**(Continued)**

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Port Jefferson Free Library's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Port Jefferson Free Library's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the schedule of proportionate share of the net pension liability, the schedule of library pension contributions and the schedule of changes in the Library's total OPEB liability and related ratios be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### Using This Annual Report

This annual report consists of three parts-*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include information that presents two different views of the Library:

- The first four columns of these financial statements include information on the Library's funds under the modified accrual method. These *Fund Financial Statements* focus on current financial resources and provide a more detailed view about the accountability of the Library's sources and uses of funds.

The adjustment column of the financial statements represents adjustments necessary to convert the fund financial statements to the government-wide financial statements under the full-accrual method.

- The *government-wide financial statement* columns provide both long-term and short-term information about the Library's overall financial status. The statement of net position and the statement of activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances. These statements tell how these services were financed in the short term as well as what remains for future spending.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

### **(Continued)**

#### **The Library As A Whole**

- The Library's net assets increased by \$756,124 this year. This was the combined result of receiving more revenues and having lower spending than anticipated. The explanations for many of the budgetary variances are explained in the "Library Funds" section below.
- The Library's primary source of revenue is contract services (non-resident fees) and property taxes. Revenue from contract services represented 26 percent of total revenue, and property taxes represented 69 percent of total revenue. In the prior year these revenue items represented 27 percent and 69 percent of total revenue respectively.
- As is typical of service agencies, salaries and benefits are a significant expense of the Library, representing 74 percent of the Library's total expenses. These expenses totaled \$2,910,112 for the year ending June 30, 2022 versus \$3,115,507 for the year ending June 30, 2021.

#### **The Library Funds:**

Our analyses of the Library's funds are included in the first three columns of pages 10 through 12 on the respective statements. The fund columns provide detailed information about the most significant funds – not the Library as a whole. The Library Board has the ability to create separate funds to help manage money for specific purposes and to maintain accountability for certain activities. Currently, the Library's funds consist of the General Fund, the Capital Fund, and the Debt Service Fund.

The fund balance of the General Fund increased during the year from \$8,340,316 to \$8,990,209. This is primarily the result of the budgetary highlights described below. The fund balance of the Capital Fund decreased during the year from \$145,934 to \$83,360. The fund balance of the Debt Service Fund remained the same at \$155,755.

#### **Budgetary Highlights:**

The following are explanations for the significant variations between the Library's final budget and the actual results of the General Fund:

- The favorable variance in the budget line for payments in lieu of taxes was \$21,786. This was due to having several more complexes that were built in the Village after the budget had been completed.
- In total, there was a \$102,251 favorable budget variance for operating revenue. The majority of this variance was within the contract services revenue line. The Library budgets this number conservatively since revenues can fluctuate depending upon the number of residents from neighboring un-served library districts who sign up with the Port Jefferson Free Library for service. These neighboring districts can choose from a number of neighboring libraries for service.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**(Continued)**

**Budgetary Highlights: (Continued)**

- The favorable variance in the budget line for passport income was due to budgeting conservatively for this income during the pandemic. Passport traffic picked up considerably which resulted in higher income than anticipated.
- The unfavorable variance in interest income was due to earning lower interest rates than anticipated.
- The favorable variance in the gifts and donation budget line was \$7,697. Considering the impact from the pandemic, the Library budgeted conservatively for this income. Fortunately, due to the generosity of the Friends of the Library, the Lions Club and the community at large, more was received than expected.
- In total, the salaries and wages budget section was underspent by \$88,177 or 4.05%. The Library attributes this to having a Custodian go out on long-term disability and having two unfilled Security positions.
- The budget line for post-retirement health was underspent by \$190,000. The Library included this line in their budget as a mechanism to address its long-term retiree medical insurance needs and to accumulate funds to offset future premium increases.
- The budget line for programs and program supplies was underspent by \$62,329. The Library attributes this to their decision to pause in-person programming when COVID-19 spiked midway through the fiscal year. The Library also started using volunteer social workers for its Helping Hands Program which saved a significant amount of money.
- The budget line for audio/visual materials was underspent by \$30,854. During the pandemic the Library ceased purchasing audio visual materials. Although purchasing did resume, it remains at a significantly lower levels when compared to pre-pandemic activity.
- The budget line for publicity and printing was underspent by \$5,459. During the pandemic, the Library slowed its normal publicity practices. Over the course of the fiscal year as in-person programs and events have increased, publicity and printing costs have also started to increase.
- The budget line for conference and travel was underspent by \$7,820. Due to the pandemic, staff did not travel or attend conferences unless they were held virtually.
- The budget line for Library insurance was underspent because the Library anticipated higher premium increases than what was realized.
- The budget line for utilities was underspent by \$15,782. The Library attributes this cost savings to the reduced operating hours and the reduced building use in certain areas of the building during the pandemic. This led to lower electrical usage as well as heating and cooling needs.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

### **(Continued)**

#### **Budgetary Highlights: (Continued)**

- The budget line for building and grounds repair/improvement was underspent. In anticipation of the planned renovation project, the Library only made repairs and improvements that were necessary.
- The unfavorable variance in the budget line for building and grounds maintenance was due to budgeting for fewer custodial supplies than were required.
- The budget line for equipment, furniture and fixtures was underspent by \$16,846. During the pandemic fewer pieces of furniture and equipment were required to be purchased.
- The budget line for right to use assets – leases was overspent. Due to the issuance of Governmental Accounting Standard No. 87, the Library was required to record as an expense the present value of its future minimum lease payments on its new copier lease. This unfavorable variance is offset by the lease proceeds recorded in the other financing sources section of this report.

#### **Capital Assets and Debt Administration:**

During the fiscal year the Library purchased \$167,413 of fixed assets and \$34,850 of right to use assets (capital outlay). The majority of these expenditures were paid from the Capital Fund and were related to the land and Teen Center site improvement project, a new telephone system and siding replacement. The purchases made from the General Fund were for a wide variety of items such as computer equipment, furniture, fixtures, etc. During the year, the Library discarded \$14,365 of broken and/or obsolete furniture and equipment.

The only long-term debt that the Library has is to its employees for compensated absences, its lease liability and its obligation for other post-employment benefits. The net pension liability reported in the prior year of \$6,832, reversed and became a net pension asset of \$576,288 at June 30, 2022. The liability for compensated absences at June 30, 2022 was \$193,360. This represents a decrease of \$4,862 from the previous year. The Library also made principal payments of \$1,684 on its lease liability reducing the debt at June 30, 2022 to \$36,215. The obligation for other post-employment benefits at June 30, 2022 was \$5,033,417. This represents a decrease of \$400,701 from the previous year.

#### **Currently Known Conditions:**

The Library budget vote for the 2022-2023 fiscal year was approved by the taxpayers. The anticipated tax revenues will be \$3,307,075. This is a 2.00% increase as compared to the 2021-2022 fiscal year budget.

**PORT JEFFERSON FREE LIBRARY  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2022**

**NOTE 1: Summary of Significant Accounting Policies**

The accounting policies of Port Jefferson Free Library conform to accounting principles generally accepted in the United States of America as applicable to governmental units. Accordingly, in June 1999, the Governmental Accounting Standards Board issued Statement No. 34, *Basic Financial Statements – and Managements Discussion and Analysis – for State and Local Governments*. Some of the significant changes in the statement include the following:

- A management's Discussion and Analysis section providing an analysis of the Library's overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all of the Library's activities.
- A change in the fund financial statements to focus on the major funds.

The following is a summary of the significant accounting policies:

- A. **Reporting Entity:** The Port Jefferson Free Library coordinates the raising of its real estate tax revenues with the Port Jefferson Union Free School District #6. The Board of Trustees is responsible for the approval of the annual budget and oversight of the Library management's control and disbursement of funds and maintenance of assets. The Library's management is solely responsible for day-to-day operations.
- B. **Management Focus, Basis of Accounting and Financial Statement Presentation:** The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's major funds).

**Government-Wide Financial Statements:** The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The effect of interfund governmental activity has been eliminated from the government-wide financial statements.

The Statement of Net Position includes and recognizes all long-term assets and receivables as well as long-term debt and obligations. The Library's net position is reported in three parts- net investment in capital assets; restricted net position; and unrestricted net position.

**NOTE 1: Summary of Significant Accounting Policies (Continued)**

**B. Management Focus, Basis of Accounting and Financial Statement Presentation:**  
**(Continued)**

**Fund Financial Statements:** Governmental fund financial statements are reported using the modified accrual basis of accounting prescribed by the Governmental Accounting Standards Board and the State of New York's Department of Audit and Control, Division of Municipal Affairs. Under this method, revenues are recognized in the period in which they become both measurable and available. The Library considers all revenues reported in the governmental funds to be available if the revenues are collected within a reasonable period of time after fiscal year end, except for real property taxes, which are considered to be available if they are collected within sixty days after the end of the fiscal year. Fees and other income items other than interest income are recorded when received in cash. Expenditures are recognized in the period in which the liability is incurred. However, debt service expenditures, if applicable, are recorded only when a payment is due. The Library reports on the following funds:

**General Fund:** This fund is established to account for resources devoted to the general services that the Library performs for its patrons. General tax revenues and other sources of revenues used to finance the fundamental operation of the Library are included in this fund.

**Capital Fund:** This fund is used to account for resources devoted to the construction and renovation of the Library.

**Debt Service Fund:** This fund is used to account for the accumulation of resources for, and the payment of general long-term debt and interest.

**C. Budgetary Accounting:** Formal budgetary accounting is employed as a management control of the general fund. Expenditures are compared to actual results in the report.

**D. Interfund Transactions:** The operations of the Library include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The Library typically loans resources between funds for cash flow purposes. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include transfers to provide financing or other services. This includes the transfer of unrestricted General Fund revenues to finance various expenditures that the Library must account for in other funds in accordance with budgetary authorizations.

**E. Tax Status:** The Library qualifies as a tax-exempt organization under Section 501 (c) (3) of the Internal Revenue Code and accordingly there is no provision for income taxes.

**NOTE 1:      Summary of Significant Accounting Policies (Continued)**

- F.      Fund Balance Classifications:**      The Governmental Accounting Standards Board (GASB) issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* that defines the different types of fund balances that a governmental entity must use for financial reporting purposes.  
They are as follows:

**Nonspendable:**      This includes amounts that cannot be spent because they are either not in spendable form (i.e. inventories, prepaid expenses, etc.) or they are legally or contractually required to be maintained intact.

**Restricted:**      This includes amounts with constraints placed on the use of resources. These constraints can be externally imposed by creditors, grantors, contributors, or imposed by laws and regulations.

**Committed:**      This includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the Library's Board. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

**Assigned:**      This includes amounts that are constrained by the Library's intent to be used for specific purposes, but are neither restricted nor committed. The Library Board is not required to impose or remove the constraint. Assignments of fund balance cannot be made if it would result in a negative unassigned fund balance.

**Unassigned:**      This includes the residual classification for the Library's general fund. This classification represents fund balance that has not been assigned to other funds, assigned for specific purposes, restricted, or committed.

- G.      Order of Use of Restricted/Unrestricted Net Position and Fund Balance:**      When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the Library's policy is to apply restricted net position first. Expenditures incurred from unrestricted resources are applied to committed fund balance as determined by the Board, then to assigned fund balance, and then to the unassigned fund balance.

- H.      Use of Estimates:**      The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenditures during the period. Actual results could differ from those estimates.

**PORT JEFFERSON FREE LIBRARY  
NOTES TO FINANCIAL STATEMENTS

**NOTE 1:      Summary of Significant Accounting Policies (Continued)**

- I.      Investments:**      The Library's investment policies are governed by State statutes and its own written investment policy. Permissible investments for the Library include special time deposit accounts, certificates of deposit, obligations of the United States of America and the State of New York.
- J.      Right to Use Assets:**      The Library has recorded right to use lease assets as a result of implementing GASB No. 87. The right to use assets are initially measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the lease into service. The right to use assets are amortized over the terms of the related leases and at the same rate as the lease payment schedule.
- K.      Capital Assets:**      Capital assets are defined by the Library as assets with an initial cost of \$500 or more and an estimated useful life of more than two years. Such assets are recorded at historical cost or estimated historical cost. Donated assets are reported at estimated fair market value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Library books and materials are not capitalized. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:
- |                           |                         |
|---------------------------|-------------------------|
| Equipment                 | 5 years                 |
| Furniture and fixtures    | 7-10 years              |
| Building and improvements | 40 years                |
| Leasehold improvements    | life of lease (5 years) |

**NOTE 2:      Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less.

**NOTE 3:      Concentration of Credit Risk**

The Library maintains all of its cash balances at one bank. At fiscal year end, the Library's carrying amount of deposits was \$9,383,331 (excludes petty cash and undeposited funds) and the bank balance was \$9,508,898. Of the bank balance, \$500,000 was covered by federal depository insurance. The remaining balance of \$9,008,898 was covered by collateral held by the Library's agent.

**NOTE 6:      Accounts Payable**

Accounts payable consisted of unpaid invoices at June 30, 2022.

**NOTE 7:      Compensated Absences Payable**

The Library has an accumulated liability as of June 30, 2022 for unused sick and vacation pay amounting to \$193,360. This represents a decrease of \$4,862 from the previous year. The Library expects to pay \$1,118 of this liability within the next twelve months.

**NOTE 8:      Long Term Debt**

The following is a summary of changes in long-term debt for the year ended June 30, 2022:

**NOTE 9:      Change in Accounting Principle**

Effective July 1, 2021, the Library adopted GASB No. 87, *Leases*. Under this Statement, a lessee is required to recognize a lease liability and an intangible right to use asset, thereby enhancing the relevance and consistency of information about its leasing activities. The Library retroactively adjusted its opening balances to record the liability and the right to use asset. However, there was no effect on the balance of the Library's opening net position.

**PORT JEFFERSON FREE LIBRARY  
NOTES TO FINANCIAL STATEMENTS

**NOTE 10: Lease Liability**

The Library entered into two copier lease agreements. The agreements qualify as other than short-term leases under GASB No. 87 and, therefore, have been recorded at the present value of the future minimum payments as of the date of inception.

The first agreement was executed on May 6, 2021 and requires 16 quarterly payments of \$195. The lease liability is measured at a discount rate of 1.07%, which is the Applicable Federal Rate. As a result of the lease, the Library has recorded a right to use asset with a net book value of \$2,299 at June 30, 2022.

The second agreement was executed on May 24, 2022 and requires 36 monthly payments of \$1,005. The lease liability is measured at a discount rate of 2.48%, which is the Applicable Federal Rate. As a result of the lease, the Library has recorded a right to use asset with a net book value of \$33,916 at June 30, 2022.

The future minimum lease obligations and the present value of these minimum lease payments as of June 30, 2022, are as follows:

<b><u>Year Ended June 30,</u></b>	<b><u>Principal Payments</u></b>	<b><u>Interest Payments</u></b>	<b><u>Total Payments</u></b>

**NOTE 11: Retirement Plan**

- A. **Plan Description and Benefits Provided:** The Port Jefferson Free Library participates in the New York State and Local Employees' Retirement System (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. The Comptroller is an elected official determined in a direct statewide election and serves a four year term. Thomas P. DiNapoli has served as Comptroller since February 7, 2007. In November 2018, he was elected for a new term commencing January 1, 2019. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The Port Jefferson Free Library also participates in the Public Employees' Group Term Life Insurance plan (GTLI), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. Separately issued financial statements for the System can be accessed on the Comptroller's website at [www.osc.state.ny.us/retire/about\\_us/financial\\_statements\\_index.php](http://www.osc.state.ny.us/retire/about_us/financial_statements_index.php)
- B. **Benefits Provided:** The System provides retirement benefits as well as death and disability benefits.

**Tiers 1 and 2**

Eligibility: Tier 1 members, with the exception of those retiring under special retirement plans, must be at least age 55 to be eligible to collect a retirement benefit. There is no minimum service requirement for Tier 1 members. Tier 2 members, with the exception of those retiring under special retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. The age at which full benefits may be collected for Tier 1 is 55, and the full benefit age for Tier 2 is 62.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If the member retires with 20 or more years of service, the benefit is 2 percent of final average salary for each year of service.

**PORT JEFFERSON FREE LIBRARY**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 11:**    **Retirement Plan (Continued)**

**B.    Benefits Provided: (Continued)**

*Tiers 1 and 2 (Continued)*

Tier 2 members with five or more years of service can retire as early as age 55 with reduced benefits. Tier 2 members age 55 or older with 30 or more years of service can retire with no reduction in benefits. As a result of Article 19 of the RSSL, Tier 1 and Tier 2 members who worked continuously from April 1, 1999 through October 1, 2000 received an additional month of service credit for each year of credited service they have at retirement, up to a maximum of 24 additional months. Final average salary is the average of the wages earned in the three highest consecutive years. For Tier 1 members who joined on or after June 17, 1971, each year of final average salary is limited to no more than 20 percent of the previous year. For Tier 2 members, each year of final average salary is limited to no more than 20 percent of the average of the previous two years.

*Tiers 3, 4, and 5*

Eligibility: Tier 3, 4 and 5 members, with the exception of those retiring under special retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tiers 3, 4 and 5 is 62.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with between 20 and 30 years of service, the benefit is 2 percent of final average salary for each year of service. If a member retires with more than 30 years of service, an additional benefit of 1.5 percent of final average salary is applied for each year of service over 30 years. Tier 3 and 4 members with five or more years of service and Tier 5 members with 5 or more years of service can retire as early as age 55 with reduced benefits. Tier 3 and 4 members age 55 or older with 30 or more years of service can retire with no reduction in benefits. Final average salary is the average of the wages earned in the three highest consecutive years. For Tier 3, 4 and 5 members, each year of final average salary is limited to no more than 10 percent of the average of the previous two years.

*Tier 6*

Eligibility: Tier 6 members, with the exception of those retiring under special retirement plans, must have 5 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tier 6 is 63.

**PORT JEFFERSON FREE LIBRARY  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2022**

**NOTE 11: Retirement Plan (Continued)**

**B. Benefits Provided: (Continued)**

*Tier 6 (Continued)*

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with 20 years of service, the benefit is 1.75 percent of final average salary for each year of service. If a member retires with more than 20 years of service, an additional benefit of 2 percent of final average salary is applied for each year of service over 20 years. Tier 6 members with 10 or more years of service can retire as early as age 55 with reduced benefits. Final average salary is the average of the wages earned in the five highest consecutive years. For Tier 6 members, each year of final average salary is limited to no more than 10 percent of the average of the previous four years.

*Ordinary Disability Benefits*

Generally, ordinary disability benefits, usually one-third of salary, are provided to eligible members after 10 years of service; in some cases, they are provided after five years of service.

*Accidental Disability Benefits*

For all eligible Tier 1 and Tier 2 ERS members, the accidental disability benefit is a pension of 75 percent of final average salary, with an offset for any Workers' Compensation benefits received. The benefit for eligible Tier 3, 4, 5 and 6 members is the ordinary disability benefit with the years-of-service eligibility requirement dropped.

*Ordinary Death Benefits*

Death benefits are payable upon the death, before retirement, of a member who meets eligibility requirements as set forth by law. The first \$50,000 of an ordinary death benefit is paid in the form of group term life insurance. The benefit is generally three times the member's annual salary. For most members, there is also a reduced post-retirement ordinary death benefit available.

*Post-Retirement Benefit Increases*

A cost-of-living adjustment is provided annually to: (i) all pensioners who have attained age 62 and have been retired for five years; (ii) all pensioners who have attained age 55 and have been retired for 10 years; (iii) all disability pensioners, regardless of age, who have been retired for five years; (iv) ERS recipients of an accidental death benefit, regardless of age, who have been receiving such benefit for five years and (v) the spouse of a deceased retiree receiving a lifetime benefit under an option elected by the retiree at retirement.

**PORT JEFFERSON FREE LIBRARY**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 11: Retirement Plan (Continued)**

**B. Benefits Provided: (Continued)**

**Post-Retirement Benefit Increases (Continued)**

An eligible spouse is entitled to one-half the cost-of-living adjustment amount that would have been paid to the retiree when the retiree would have met the eligibility criteria. This cost-of-living adjustment is a percentage of the annual retirement benefit of the eligible member as computed on a base benefit amount not to exceed \$18,000 of the annual retirement benefit. The cost-of-living percentage shall be 50 percent of the annual Consumer Price Index as published by the U.S. Bureau of Labor, but cannot be less than 1 percent or exceed 3 percent.

- C. Contributions:** The System is noncontributory except for employees who joined the New York State and Local Employees' Retirement System after July 27, 1976, who contribute 3 percent of their salary for the first 10 years of membership, and employees who joined on or after January 1, 2010 (ERS) who generally contribute 3 percent of their salary for their entire length of service. For Tier 6 members, the contribution rate varies from 3 percent to 6 percent depending on salary. Generally, Tier 5 and 6 members are required to contribute for all years of service. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31. Contributions for the current year and two preceding years were equal to 100 percent of the contributions required. The required contribution for the current fiscal year was \$288,173, for the 2021 fiscal year it was \$258,067 and for the 2020 fiscal year it was \$276,321.

- D. Pension Assets, Pension Expenses, Deferred Outflows of Resources and Deferred Inflow of Resources Related to Pensions:** At June 30, 2022, the Port Jefferson Free Library reported an asset of \$576,288 for its proportionate share of the net pension asset. The net pension asset was measured as of March 31, 2022, and the total pension asset was determined by an actuarial valuation as of that date. The Port Jefferson Free Library's proportion of the net pension asset was based on a projection of the Port Jefferson Free Library's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2022, the Port Jefferson Free Library's proportion was 0.0070498 percent, which was an increase of .0001885 percent from its proportion measured at June 30, 2021.

For the year ended June 30, 2022, the Port Jefferson Free Library recognized pension expense of \$11,223.

**D.     Pension Assets, Pension Expenses, Deferred Outflows of Resources and Deferred Inflow of Resources Related to Pensions: (Continued)**

At June 30, 2022, the Port Jefferson Free Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b><u>Deferred Outflow of Resources</u></b>	<b><u>Deferred Inflow of Resources</u></b>
Difference between expected and actual experience	\$ 43,643	\$ 56,608
Changes in assumptions	961,760	16,229
Net difference between projected and actual investment earnings on pension plan investments	0	1,887,102
Changes in proportion and differences between employer contributions and proportionate share of contributions	22,328	58,337
Library's contributions subsequent to the measurement date	<u>53,805</u>	<u>0</u>
Total	<u><u>\$ 1,081,536</u></u>	<u><u>\$ 2,018,276</u></u>

\$53,805 reported as deferred outflows of resources related to pensions resulting from Port Jefferson Free Library contributions subsequent to the measurement date will be recognized as a reduction of the net pension asset in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b><u>Year Ending June 30,</u></b>	<b><u>Amount Recognized</u></b>
2023	\$ (160,203)
2024	(221,560)
2025	(503,507)

**PORT JEFFERSON FREE LIBRARY**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 11:**    **Retirement Plan (Continued)**

- E.    **Actuarial Assumptions:**    The total pension asset at March 31, 2022 was determined by using an actuarial valuation as of April 1, 2021, with update procedures used to roll forward the total pension asset to March 31, 2022. The actuarial valuation used the following actuarial assumptions:

Inflation	2.70%
Salary increases	4.40%
Investment rate of return (net of investment expense, including inflation)	5.90%
Cost-of-living adjustments	1.40%

Annuitant mortality rates are based on April 1, 2015 – March 31, 2020 System experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2020. The previous actuarial valuation as of April 1, 2020 used the same assumptions to measure the total pension asset.

The actuarial assumptions used in the April 1, 2021 valuation are based on the results of an actuarial experience study for the period April 1, 2015 – March 31, 2020.

The long term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**PORT JEFFERSON FREE LIBRARY  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2022**

**NOTE 11: Retirement Plan (Continued)**

**E. Actuarial Assumptions: (Continued)**

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	32.00%	3.30%
International equity	15.00%	5.85%
Private equity	10.00%	6.50%
Real estate	9.00%	5.00%
Opportunistic portfolio	3.00%	4.10%
Credit	4.00%	3.78%
Real assets	3.00%	5.80%
Fixed income	23.00%	0.00%
Cash	1.00%	(1.00%)
Total	<u>100.00%</u>	

The real rate of return is net of the long-term inflation assumption of 2.5%

*Discount Rate* – The discount rate used to measure the total pension liability (asset) was 5.9%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**E. Actuarial Assumptions: (Continued)**

*Sensitivity of the Proportionate Share of the Net Pension Liability (Asset) to the Discount Rate Assumption* – The following presents the current-period net pension liability (asset) of the Library, calculated using the current-period discount rate assumption of 5.90 percent, as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage-point lower (4.90 percent) or 1 percentage-point higher (6.90 percent) than the current assumption:

	<b>1% Decrease (4.90%)</b>	<b>Current Assumption (5.90%)</b>	<b>1% Increase (6.90%)</b>
Library's proportionate share of the net pension liability (asset) \$	1,483,359	\$ (576,288)	\$ (2,299,083)

*Pension plan fiduciary net position* – The components of the current year net pension liability of the New York State and Local Retirement System as of March 31, 2022, in thousands of dollars was as follows:

	<b>Total</b>
Employers' total pension liability	\$ 223,874,888
Plan net position	<u>(232,049,473)</u>
Employers' net pension asset	<u>\$ (8,174,585)</u>
Ratio of plan net position to the Employers' total pension liability	103.65%

- A. Plan Description:** The New York State Department of Civil Service (DCS) administers the New York Health Insurance Program (NYSHIP) which provides health insurance to current and retired employees of New York State, and participating public authorities and local governmental units, such as the Port Jefferson Free Library. NYSHIP offers comprehensive hospital, medical and prescription drug benefits. As administrator of NYSHIP, the DCS performs all administrative tasks and has the authority to establish and amend the benefit provisions offered. Annual benefit premiums charged to and paid by participating local governmental entities are generally the same, regardless of each individual employer's risk profile. The annual benefit premiums collected by DCS are then remitted to the health insurance carriers that comprise NYSHIP. NYSHIP is considered an agent multiple-employer defined benefit plan, it is not a separate entity or trust, and does not issue stand-alone financial statements. The Library, as a participant in the plan, recognizes these postemployment benefits on an accrual basis.
- B. Benefits Provided:** Contribution requirements are determined by the Library Board. Currently, for full-time employees hired prior to July 1, 2002, the Library will pay 100% of the amount for a retiree's individual policy premium and 75% of the additional cost of a family policy premium. For full-time employees hired on or after July 1, 2002, the Library will pay that which was provided to the employee at the time of their retirement, as shown below, and 75% of the additional cost of a family policy premium.

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2022**

**NOTE 12: Post-employment Benefits Other Than Pensions (Continued)**

**B. Benefits Provided: (Continued)**

For the year ending June 30, 2022, the Library recognized the cost of providing health insurance by recording its share of retiree insurance premiums of \$124,253 as an expenditure in the General Fund. Port Jefferson Free Library also reimburses retired employees and their spouses the full cost of Medicare deducted from their Social Security benefits, which amounted to \$42,209. The retiree's share of premiums for health insurance is withheld from their monthly NYS retirement pension payment.

As of July 1, 2021, the following employees were covered by the benefit terms:

Active employees	19
Inactive employees entitled to but not yet receiving benefit payments	0
Inactive employees or beneficiaries currently receiving benefit payments	<u>13</u>
Total	<u><u>32</u></u>

- C. Total Other Post-Employment Benefit (OPEB) Liability:** The Library's total OPEB liability of \$5,033,417 was updated through June 30, 2022 and was determined by an actuarial valuation as of July 1, 2021.

**D. Actuarial Assumptions and Other Inputs:**

Inflation Rate	2.00%
Participant Salary Increases	3.50%
Discount Rate	3.54%
2021 Medical Trend Rates (Pre-65/Post-65)	7.00% / 5.00%
2022 Medical Trend Rates (Pre-65/Post-65)	6.50% / 5.00%
Ultimate Medical Trend Rate	5.00%
Year Ultimate Trend Year Reached	2025/2021

The discount rate was based on the *Bond Buyer's 20 Bond Index* as of June 30, 2022.

Mortality rates were based on the Society of Actuaries' RPH-2014 Total Dataset head count-weighted fully generational mortality table with projection scale MP-2021.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 14: Reconciliation of Fund Financial Statements to Government-Wide Financial Statements**

Total fund balance and the net change in fund balance of the Library's governmental fund differs from net position and changes in net position of the governmental activities reported in the statement of net position and statement of activities. This difference primarily results from the long-term economic focus of the statement of net position and statement of activities versus the current financial resources focus of the governmental fund balance sheet and statement of revenue, expenditures, and change in fund balance. The following are reconciliations of fund balance to net position and the net change in fund balance to the net change in net position:

**Total Fund Balance - Modified Accrual Basis** \$ 9,229,324

Amounts reported in the statement of net position are different because:

- Capital assets are not financial resources, and are not reported in the funds 2,182,307
- Right to use assets are not financial resources, and are not reported in the funds 36,215
- Net pension asset is not included in the funds 576,288
- Deferred outflows on OPEB is not reported in the funds 1,263,492
- Deferred outflows on pension is not reported in the funds 1,081,536
- Compensated absences are included as a liability in the funds (193,360)
- Obligation for post-employment health insurance, to be paid in future periods is not reported in the funds (5,033,417)
- Lease liability payments due in future periods are not reported in the funds (36,215)
- Deferred inflows on OPEB is not reported in the funds (1,866,351)
- Deferred inflow on pension is not reported in the funds (2,018,276)

**Total Net Position - Full Accrual Basis** \$ 5,221,543

**PORT JEFFERSON FREE LIBRARY  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2022**

**NOTE 14: Reconciliation of Fund Financial Statements to Government-Wide Financial Statements (Continued)**

**Net Change in Fund Balance - Modified Accrual Basis** **\$ 587,319**

Amounts reported in the statement of activities are different because:

- Capital outlays are reported as expenditures in the statement of revenue, expenditures, and changes in fund balance; in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:

Capital outlay	167,413
Right to use assets (lease contracts entered)	34,850
Depreciation expense	(124,350)
Amortization expense	(1,684)
  
- (Increase)/decrease in the items reported as expenditures in the statements of activities, not in the fund statements:

Compensated absences	4,862
Post-employment health costs	(139,363)
Net pension expenses	260,243
  
- Repayment of long-term debt is not an expense in the statement of activities, rather a reduction of the liability:

Principal paid on lease liability	1,684
-----------------------------------	-------
  
- Lease proceeds are reported as other financing sources in the funds whereas in the statement of activities these proceeds are recorded as a liability (34,850)
